## Recreational Experience

*The following centennial proposal is certified as eligible for Centennial Challenge funding consideration in fiscal year 2008. Funding for the Centennial Challenge requires legislation.*

### Restoration of McQueen's Island Multipurpose Trail

Location: Georgia, Savannah  
Partner: Chatham County Government  
Partner Website:  
Total Cost: \$240,000  
Proposal # 137556

**Summary:** As proposed by Fort Pulaski NM and partners, this project would restore and stabilize a fifty foot swath of the old Central of Georgia Railway along a six mile trail on McQueen's Island. This multipurpose trail would include a two mile extension of the trail that connects visitors to the historic railroad onto Tybee Island. Visitors could access the federal battery position currently under construction. Once completed this trail will allow visitor's full and safe access for recreation purposes and provide a tangible link to the past. To date, numerous areas are compromised and pose safety hazards as well as the complete loss of this historic railroad bed. Interpretive panels and signage will enhance the visitor experience and understanding of this historic area.
